要旨： A 49-year-old woman was reported missing by family members on Wednesday, police said.
Authorities went to her residence in the Richfield subdivision and ended up arresting her 27-year-old
son at about 11:45 p.m. Friday night. Even though authorities did not initially have a body, they ruled
her disappearance a homicide and charged her son with murder based on the amount of biological
evidence in the home where both she and her son lived, according to reports. Family members reported
that the relationship between the mother and son had become strained in the last few weeks. They had
apparently been arguing over the use of a vehicle and money.
